<https://www.vibrantcarepharmacy.com/>

Vibrant Care Pharmacy was built on the belief that partnerships between the patient, care provider, and pharmacy are the foundation to effective and robust treatment. While many pharmacies can provide you with medications, Vibrant Care Pharmacy provides you with round-the-clock exceptional service, commitment and expertise to ensure dynamic health.

At Vibrant Care Pharmacy, we believe integrated partnerships between our pharmacy, facilities, providers, case managers, and patients can:

Reduce Cost and Increase Efficiency

Increase Efficacy and Compliance

Optimize Treatment and Health

Your Trusted Partner in Medication Management

Reduce Cost and Increase Efficiency

by spending up to 85% less time managing medication orders through our Care Catalyst medication management portal and MyDoses App.

Increase Efficacy and Compliance

Transform the way you administer medications with our innovative DosePacker medication storage, proprietary packaging, and cutting-edge software capabilities. Increase the efficacy and compliance of your med-pass by as much as 50%.

Optimize Treatment and Health

using our Patient Education, In-House Delivery Services, Reimbursement and Authorization programs, Health Plan Assistance, Medication Synchronization, Therapy Management and Transition-Care Services.

I've worked with Vibrant Care Pharmacy for 35 years, and our experience with the pharmacy is great. I love the convenience of Saturday deliveries and the RxSend online portal for getting MARs, ordering refills and reviewing change order notifications. The RxSend portal is very user friendly and easy to use. The DosePacker adherence packaging simplifies our med-pass, helping us save time and accurately administer medications. We really like the resident and medication package images.

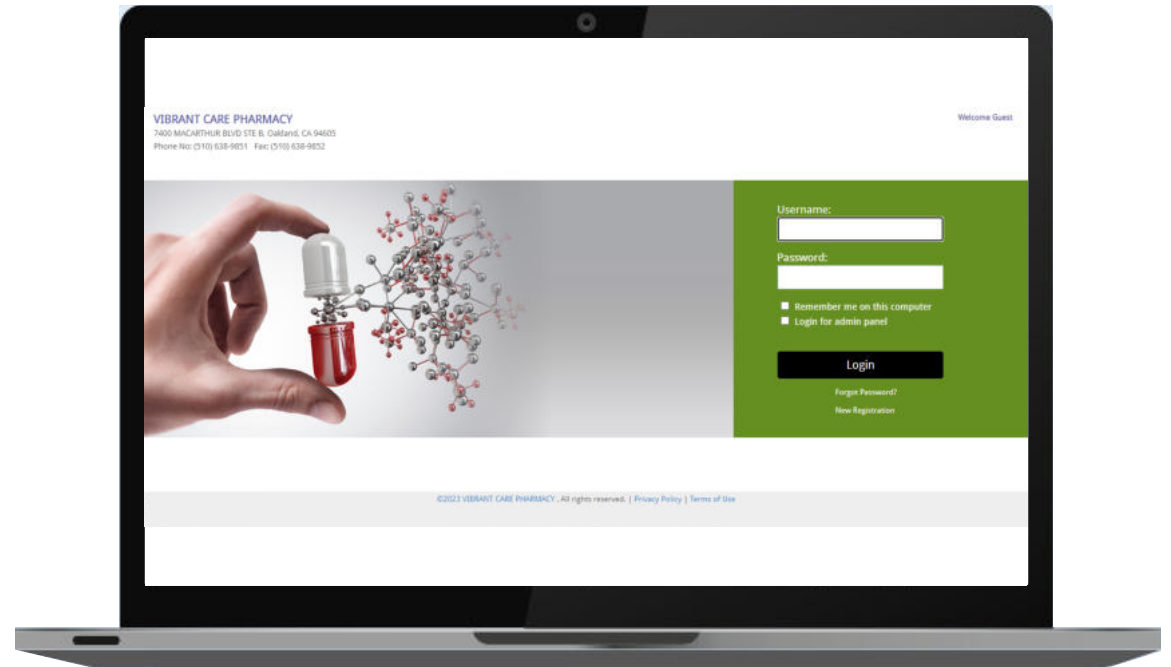

We have tried other pharmacies, but they just don't work with us the way Vibrant care does. We make sure to refer the pharmacy to our fellow providers.

Chambers Residential Care Home
Inc.*

Rxsend Medication Management Portal saves time.

- Receive real-time patient profile updates & information
- Check medication order status
- Log and print e-MARs & LIC 622 forms
- Manage and order prescription refills
- Check drug interactions
- Monitor patient prescription history
- Verify compliance charts
- HIPAA compliant communications with pharmacy
- Access pending bills and historical statements
- View customizable billing reports
- Check resident reports and historic information

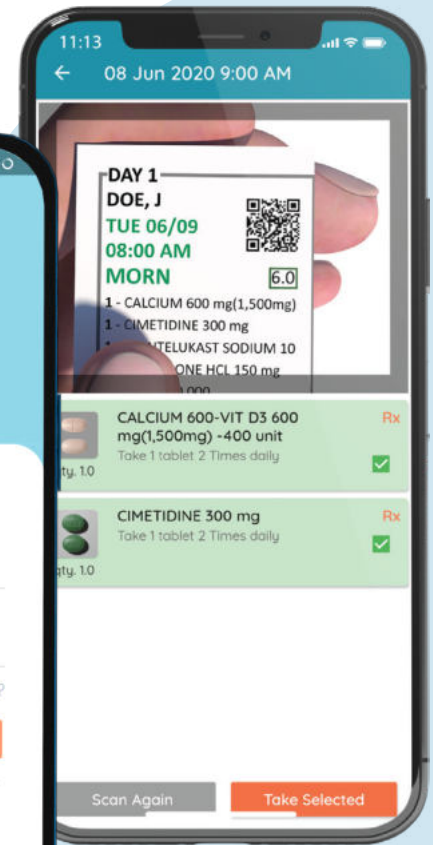

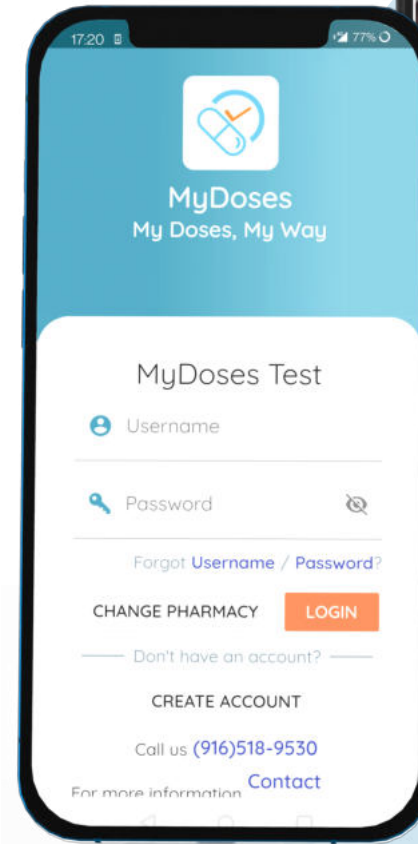

Technology Solutions for 21st Century Care

MyDoses App

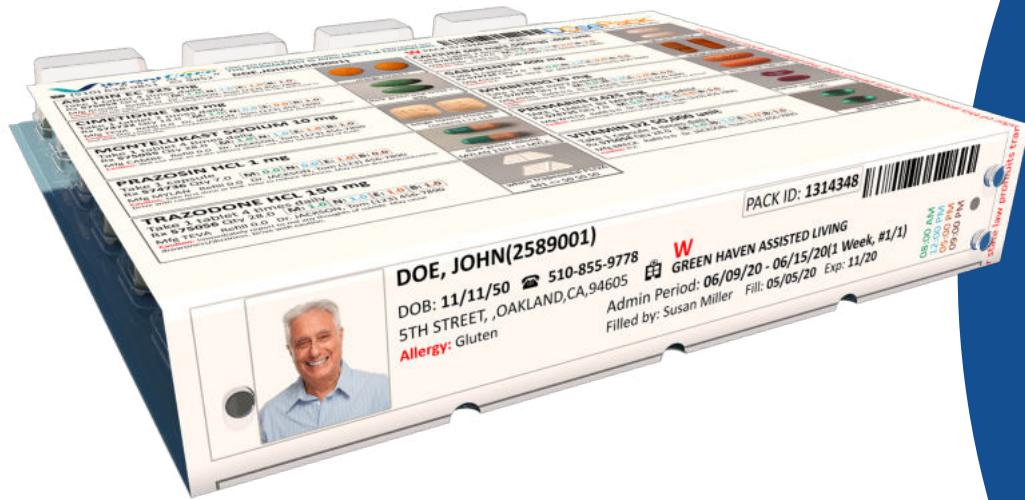

MyDoses is a mobile application to enhance medication adherence through its suite of in-app medication management, and notification workflows.

With MyDoses App care givers and patients can:

- Build and manage medication prescription profiles
- Configure medication reminders and missed dose alerts
- Manage refills
- Scan QR code to authenticate medication administration
- Communicate with pharmacy and care givers using HIPAA compliant chat and SMS
- Interface with DoseMinder medication adherence system

Technology Solutions for 21st Century Care

Unit and Multi-Dose Perforated Compliance Pack

The unit and multi-dose compliance packs have individual pockets of medications that are categorized according to the hour of administration.

Patients and facility staff can remove either a single med-pass or take an entire day with them.

- 26+ Pack Layout Configurations
- Single and Multiple patient pack options
- Color-coded medication labeling
- Scannable QR code for validating medication administration

Simplified Medication Packaging

Vibrant Care Pharmacy is your trusted partner in optimizing the treatment and health of your patients.

We are experts in:

“ I first began working with members of the Vibrant Care team around 1995. Over the years I have had the pleasure of watching the team grow in size and scope while maintaining the highest quality of services. The Vibrant Care team is quick to respond to the needs of its customers, irrespective of whether such needs are seen or unforeseen. I highly recommend Vibrant Care for your pharmacy needs.”

~ Dr. Ernest Bonner, M.D.

“ I've worked with Vibrant Care Pharmacy for 20 years and really appreciate their great service. No other pharmacy provides such consistent, reliable, and helpful service. Not only do they always deliver on time and when we need but they contact doctors on our behalf, are proactive about getting refills recorded, and take action to make our lives simpler, which takes the stress off us. The adherence packaging helps our residents manage their medication, and increases their compliance to their treatment programs.”

*~Candy, Owner
Arsola's House Independent Living*

“ Vibrant Care Pharmacy's on-site injectables center adds flexibility to both my and my patients schedules, and ensures treatment is not interrupted. Their adherence packaging makes it much easier for our patients to administer their medications, and their customer service level is excellent. When I need something, I can trust Vibrant Care to deliver.”
